

FOR IMMEDIATE RELEASE

**Jergens, Inc. Receives AS9100:2016 Rev D Single Site Certification,
Expanding its Engineering and Design Capabilities in
Aviation, Space & Defense**

CLEVELAND, OH, August 11, 2020 –[Jergens, Inc.](#) announced that it has received a new certification that will expand the company’s engineering and design capabilities in the aerospace, space and defense sectors. The certification is designated for Jergens Specialty Fastener products, including Quick Release Pins, Threaded Inserts, Spring Plungers, Spring Loaded Devices, Handwheels, and Adjustable Handles & Knobs.

The AS9100:2016 Certification is an invaluable component to the design and manufacturing of Specialty Fasteners, Lifting Solutions, and Workholding Solutions. The new certification will further enable Jergens Inc. to customize and design components offering rigid quality standards and mil-specs, with tight tolerances and high precision.

“This certification is a game changer for Jergens and separates us from our competitors in terms of efficiency and service response time,” said Matt Schron, General Manager for Jergens, Inc. “Our many customers in the aerospace sector, both military and commercial, are seeking our heavily engineered expanded design services, customer solutions and standard and special configuration all while maintaining our shorter lead times. This certification will allow us to better serve our clients with premium products more quickly.”

With its extensive inventory of in-stock mil-spec specialty fasteners, Jergens services customers that have exact specifications and uncompromising quality standards. The company also offers military and government customers critical assistance, ensuring products are always DFARS (Defense Federal Acquisition Regulation Supplement) compliant. Jergens manufactures its products from its U.S. facilities and is committed to finding transformative results in the engineering and design of niche devices across the aerospace, defense and space business.

About Jergens, Inc.

For more than 75 years, Jergens, Inc. has provided innovative engineering solutions with premium Workholding, Fastener and Lifting products. Jergens, Inc. is focused on providing engineered products of the highest quality whether a standard or special. Headquartered in Cleveland Ohio, Jergens has a global presence with sales offices in Shanghai, China & Mumbai, India

Since its founding, Jergens, Inc. has grown to comprise three distinct business units: Workholding Solutions, Lifting Solutions and Specialty Fasteners. Building on its reputation of uncompromising quality standards, Jergens is committed to helping its customers achieve leaner, more profitable manufacturing, and continues to add products and engineered solutions for an integrated approach to "Manufacturing Efficiency."

Founded in 1942, Jergens, Inc. is an AS9100 Rev. D ISO 9001:2015 certified company committed to helping its customers achieve leaner, more profitable manufacturing, and continues to add products and engineered solutions for an integrated approach to "Manufacturing Efficiency."
