

THE *Jergens* DIFFERENCE

Keylocking Inserts

OURS

THEIRS

Jergens keylocking inserts are easy to install with standard drills and taps.

Competitive thread repair devices require special drills, taps, and installation tools.

JERGENS KEYLOCKING INSERTS

VS.

THREAD REPAIR FROM OTHER MANUFACTURERS

Easy installation requires no special tools: uses standard drills and standard taps.

Installation requires special drills, taps, and installation tools.

“Keys” mechanically lock the insert into the base material.

Springs or locking patches do not mechanically lock the insert.

Rated among the highest in pullout strength of any thread repair device on the market.

Less pullout strength versus Jergens inserts.

Wide variety of styles, including thinwall, heavy duty, extra heavy duty, and solid inserts in both stainless steel and carbon steel materials.

Limited offerings may force you to settle on a device that doesn't meet all of your needs.
